

Crafting Chinese New Year lanterns at Sonya Lodge Residential Care Home

We were joined by our favourite pre-school friends recently to make some decorations to celebrate Chinese New Year at Sonya Lodge Residential Care Home.

The children and our residents worked together to create some **beautiful and colourful Chinese lanterns** from coloured paper.

Our ladies, gents and children made a fantastic team, with the children definitely being in charge!

They **laughed and giggled together** and it was wonderful to see the positive impact our little friends have when they visit our Home.

We look forward to another creative session with them soon!
