

## Family visits at Sonya Lodge Residential Care Home

**Sonya Lodge Residential Care Home has warmly welcomed family visitors back into the Home after a three month hiatus.**

Following the relaxation of government guidelines, we are delighted to be able to host safe, socially distanced visits between residents and family in our Forget-Me-Not Tea Room.

These visits are going very well – our residents who have been blessed with a visit already have loved every minute. Being separated from their loved ones for such a long time has been very hard.

Here are our residents Iris with her daughter Sandy; Maureen with her daughter Corrine; Pamela with her Son Gerard and Jackie with her daughter Anna. We look forward to reuniting more of our lovely residents with their families very soon!
