

## Gardening at Sonya Lodge Residential Care Home

**Our residents love spending time in the garden here at Sonya Lodge Residential Care Home. They also enjoy being fully involved in making it look beautiful for the summer.**

With this in mind, we got to work in our garden and were very lucky to have some beautiful sunshine on the day.

Some of our residents went out to **Hawley Garden Centre** to select some flowers and compost. Once they returned, our green-fingered ladies and gents set to work **planting the new flowers** in our beds and pots.

Our garden now looks **stunningly beautiful** and once everything fully flowers, it will be a wonderful sight to behold in the summer, which we know all of our residents will enjoy.
