

Sonya Lodge Residential Care Home ladies enjoy local Farmers Market

Friendship at the Farmers Market

Our lovely Sonya Lodge Residential Care Home residents Angela, Joan, Olga and Joyce visited our local farmer's market last week.

They were thrilled to be going there together and said that it felt like a *girl's day out*!

As soon as they arrived they didn't waste any time in making their way to each of the stalls to see what items were on offer. After **perusing the stalls**, they decided to buy some **matching beaded bracelets**; they were all so happy with the purchase and kept showing them off!

After their shopping, they then sat together to enjoy a **slice of cake and a hot drink** while chatting with members of the local community.

What a super outing!
