

Sonya Lodge Residential Care Home residents enjoy befriending butterflies

We took a group of our Sonya Lodge Residential Care Home residents on a wonderful trip to the butterfly house at Hall Place in Bexley recently.

Everyone loved seeing the amazingly beautiful range of **plants and butterflies** – some of the butterflies were the size of our hands, in every colour of the rainbow!

Our ladies and gents were in awe as they fluttered around our heads.

Such fascinating creatures – it was truly magical!
