

## Sonya Lodge Residential Care Home residents visit Dartford Museum

Our Sonya Lodge Residential Care Home residents George and Angela were keen to visit our local museum, so we promptly arranged a trip for them both to Dartford Museum recently.

They were full of smiles throughout this trip and **fascinated by some of the local exhibitions**. Angela particularly enjoyed the **old-fashioned shop and till exhibit**. She reminisced about this set up and her time running her own shop.

After visiting the museum, the pair walked around the **local park** before stopping at a **cafe** for a hot drink.

What an interesting trip. Angela and George have been telling everyone about it, so *we think we might by paying the museum another visit soon with some of our other residents.*
