

## **Sonya Lodge Residential Care Home residents welcome some young friends**

**We had a lovely visit at Sonya Lodge Residential Care Home from some children this week, who came in with one of our resident's family members to visit all of our ladies and gents.**

This week they enjoyed a colouring activity together and the children were keen to share their colouring tips with everyone, while chatting about everything they have been up to.

It was so special to see our residents interacting with the children and enjoying some shared activities and time together. The delighted looks on our residents' faces says it all!
