

## Therapy dogs visit Sonya Lodge Residential Care Home

We enjoyed another weekly visit from Lois the therapy dog and her owner Karen at Sonya Lodge Residential Care Home recently.

This time they also brought **Marley** with them who is training to be a therapy dog too.

Our residents love it when Lois comes to visit, and it was an extra special treat to have Marley here as well. Lois greeted each of our residents and provided them with **comfort and support**. Marley followed Lois's example and bonded well with all of our residents.

Our Business Support Officer Amanda's dog, **Roxi**, also got in on the action with everyone too!

Lois and Marley offer wonderful engagement opportunities for our residents – *so lovely to see*.

Lois, Marley and Roxy – the three amigos!
